

K-LOVE radio station serves me as resident in my local community of Oklahoma City. If this station were to be taken off of the air, it would greatly effect the lives of those of us who listen. This is the only radio station in this area and in many areas that have a positive message through their music. Many of us have come to rely on this station to hear of good news and uplift our spirits. They have free advertising for local churches to list what upcoming events they are having. Taking this station off of the air would be a tremendous heartache to many people. Please do not let this happen.
